PROJECTS

- Therapy Website
 - Developed a visually appealing and responsive website layout using HTML, CSS, and Bootstrap, ensuring seamless user experience across devices.
 - Implemented a user-friendly appointment booking system, enabling clients to schedule therapy sessions conveniently.
 - Employed Laravel's built-in authentication features to ensure secure user registration and login.
- Netflix Clone
 - Designed a fully responsive and visually appealing user interface that adapts seamlessly to various screen sizes and devices.
 - Integrated a custom-designed video player that enables users to play selected movies or shows directly on the website.
 - Utilized CSS animations to enhance user interactions and bring a dynamic feel to the user interface.
- Personal Blog Website
 - Carefully selected a suitable WordPress theme that aligned with the client's branding and website goals.
 - Applied custom CSS styling and visual elements to elevate the website's aesthetics and maintain brand consistency.
 - Ensured the website's responsiveness across various devices and screen sizes, guaranteeing optimal user experience.
